Frank Khulusi, Chairman and CEO of PCM, Inc., stated, "This is a strong start to the year, with record first quarter revenues, gross margin and operating profit achieved through increased performance in the areas of our business where we have made significant investments and aligned our resources. The success of our strategy is evidenced by the 22% increase in services sales, improving our services mix to over 8% of net sales, which helped drive the gross margin gains in the quarter. Our new UK business also delivered strong performance and achieved near break-even results less than one year after its launch. All of these accomplishments, combined with restrained spending drove significant improvement in our operating profit. We continue to execute on our strategies to increase contributions from our higher value-added services and solutions and expand our international presence."

Commenting on PCM's outlook, Mr. Khulusi concluded, "We are tracking to a record year in sales, gross profit and adjusted EPS for 2018, as we begin reaping the benefits of our 2017 investments in security, cloud, hybrid data center and managed services. We are reiterating our 2018 guidance for non-GAAP earnings per share to be in a range of \$2.00 - \$2.10 per share, including the results of our UK segment, which we anticipate being profitable for the full year of 2018. Giving effect to the new revenue standard, which is being reflected in our guidance for the first time, and that some of our highest growing areas of the business such as security are now reported on a net basis, we expect our full year 2018 growth will be approximately 4%. We are also raising our gross margin guidance from approximately 15% to a range of 15.0% - 15.5% for the full year. Further, given the seasonality of our state, local and educational component of our public sector business, and given the historic strength of netted down revenue in the second quarter, among other factors, we expect revenue growth in the third and fourth quarter to exceed that of the second quarter."

New Accounting Standard

In May 2014, the FASB issued ASU 2014-09, "Revenue from Contracts with Customers (Topic 606)," which, along with amendments issued in 2015 and 2016, replaced most existing revenue recognition guidance under GAAP and eliminate industry specific guidance. The core principle of the new guidance is that an entity should recognize revenue for the transfer of goods and services equal to an amount it expects to be entitled to receive for those goods and services. We adopted the guidance on January 1, 2018 using the full retrospective method, which resulted in adjustments to our consolidated statement of operations and consolidated statement of cash flows for the three months ended March 31, 2017 presented herein.

Results of Operations

Net Sales

Consolidated net sales were \$542.8 million in the three months ended March 31, 2018 compared to \$522.8 million in the three months ended March 31, 2017, an increase of \$20.0 million or 4%. Consolidated sales of services were \$45.0 million in the three months ended March 31, 2018 compared to \$36.8 million in the three months ended March 31, 2017, an increase of \$8.2 million, or 22%, and represented 8% and 7% of consolidated net sales in the three months ended March 31, 2018 and 2017, respectively. Consolidated net sales growth primarily resulted from an \$18.1 million increase in sales made in our new United Kingdom segment, but was negatively impacted by an \$18.0 million increase in sales reported on a net basis.

Commercial net sales were \$414.7 million in the three months ended March 31, 2018 compared to \$407.5 million in the three months ended March 31, 2017, an increase of \$7.2 million or 2%. Sales of services in our Commercial segment were \$33.0 million in the three months ended March 31, 2018 compared to \$27.2 million in the three months ended March 31, 2017, an increase of \$5.8 million or 21%, and represented 8% and 7% of Commercial net sales in the three months ended March 31, 2018 and 2017, respectively. Net sales growth in our Commercial segment was impacted by a \$6.1 million increase in sales reported on a net basis.

Public Sector net sales were \$56.1 million in the three months ended March 31, 2018 compared to \$66.6 million in the three months ended March 31, 2017, a decrease of \$10.5 million or 16%, primarily due to a \$9.8 million increase in sales reported on a net basis. Our federal sales decreased by 20%, while our state and local government and educational institution ("SLED") sales decreased by 15%. Sales of services in our Public Sector segment were \$3.1 million in the three months ended March 31, 2018 compared to \$2.2 million in the three months ended March 31, 2017, an increase of \$0.9 million or 45%, and represented 6% and 3% of Public Sector net sales in the three months ended March 31, 2018 and 2017, respectively. Our federal business net sales were negatively impacted in the quarter by the loss of a Federal contract, which we were unwilling to rebid at a loss as we stated last quarter. Our SLED business was negatively impacted by a \$9.3 million increase in sales reported on a net basis, partially offset by a \$1.4 million increase in sales of services.

Canada net sales were \$54.1 million in the three months ended March 31, 2018 compared to \$48.7 million in the three months ended March 31, 2017, an increase of \$5.4 million, or 11%, despite a \$1.4 million increase in sales reported on a net basis. Sales of services in our Canadian segment were \$7.5 million in each of the three months ended March 31, 2018 and 2017, and represented 14% and 15% of Canada net sales in the three months ended March 31, 2018 and 2017, respectively.

Our United Kingdom segment, which officially launched in the second quarter of 2017, generated net sales of \$18.1 million in the three months ended March 31, 2018.

Gross Profit and Gross Profit Margin

Consolidated gross profit was \$83.6 million in the three months ended March 31, 2018 compared to \$78.5 million in the three months ended March 31, 2017, an increase of \$5.1 million, or 6%. Consolidated gross profit margin increased to 15.4% in the three months ended March 31, 2018 from 15.0% in the same period last year. The increase in consolidated gross profit was primarily due to the increase in net sales, partially offset by a \$2.5 million decrease in vendor consideration. The increase in consolidated gross profit margin was primarily due to an \$18.0 million increase in sales reported on a net basis and an increase in selling margins driven by a higher mix of services and solutions, partially offset by a reduction in vendor consideration received as a percentage of net sales.

Selling, General & Administrative Expenses

Consolidated SG&A expenses were \$77.4 million in the three months ended March 31, 2018 compared to \$73.8 million in the three months ended March 31, 2017, an increase of \$3.6 million or 5%. Consolidated SG&A expenses as a percentage of net sales increased slightly to 14.3% in the three months ended March 31, 2018 from 14.1% in the same period last year. The increase in consolidated SG&A expenses was primarily related to a \$4.6 million increase in personnel costs, of which \$3.1 million related to our new United Kingdom segment, which was launched in the second quarter of 2017. The increase in consolidated SG&A expenses was also impacted by a \$0.6 million increase in lease expenses partially offset by a \$1.6 million decrease in outside service costs primarily related to the termination of the Pakistani BPO service contract and a \$0.6 million decrease in travel and entertainment expenses.

Operating Profit

Consolidated operating profit increased 32% to \$6.2 million compared to \$4.7 million in the prior year, for the reasons discussed above.

Income Taxes

Income tax expense was \$1.1 million in the three months ended March 31, 2018 compared to income tax benefit of \$1.0 million in the three months ended March 31, 2017. Our effective tax rate was 28.9% compared to (36.1)% in the prior year. Income taxes in the three months ended March 31, 2018 reflected the new lower Federal income tax rate and other factors within tax reform, compared to income taxes in the three months ended March 31, 2017 benefiting from a credit to income tax expense of \$2.3 million related to the excess tax benefits associated with the exercise of stock options.

Net Income

Net income for the three months ended March 31, 2018 was \$2.8 million compared to \$4.2 million for the three months ended March 31, 2017. Diluted earnings per share was \$0.23 compared to \$0.31 in the prior year.

Adjusted EPS

Non-GAAP EPS (adjusted EPS) was \$0.34 for the three months ended March 31, 2018 compared to \$0.27 in the three months ended March 31, 2017.

Consolidated Balance Sheet and Cash Flow

We had cash and cash equivalents of \$12.2 million at March 31, 2018 compared to \$9.1 million at December 31, 2017. We had \$39.5 million of net cash provided by operating activities during the three months ended March 31, 2018 compared to \$13.5 million of net cash used in operating activities in the three months ended March 31, 2017.

Accounts receivable at March 31, 2018 was \$440.7 million, an increase of \$1.0 million from December 31, 2017. Inventory at March 31, 2018 was \$75.5 million, a decrease of \$28.0 million from December 31, 2017, primarily related to certain purchases made in the fourth quarter of 2017 which have largely been sold in the first quarter of 2018. Accounts payable at March 31, 2018 was \$288.2 million, a decrease of \$1.0 million from December 31, 2017.

Cash used in investing activities during the three months ended March 31, 2018 totaled \$1.5 million compared to \$6.0 million during the three months ended March 31, 2017. Investing activities for the three months ended March 31, 2018 were primarily related to expenditures relating to investments in our IT infrastructure. Investing activities for the three months ended March 31, 2017 were primarily related to a purchase of real property in Woodridge, Illinois for \$3.1 million, expenditures relating to investments in our IT infrastructure, and leasehold improvements.

Within cash flows from financing activities, we paid earnout payments of \$1.7 million in the three months ended March 31, 2018, compared to \$2.8 million in the three months ended March 31, 2017. The earnout payment in 2018 relates to December 2017, and any remaining required earnout payments are scheduled to be paid in the second quarter of 2018.

Our outstanding borrowings under our line of credit was \$184.7 million at March 31, 2018, a \$29.1 million decline compared to \$213.8 million at December 31, 2017.

Sales Mix

The following table sets forth our gross billed sales (net of returns) by major categories as a percentage of total gross billed sales (net of returns) for the periods presented, determined based upon our internal product code classifications:

Non-GAAP Measures

We are presenting earnings before interest, taxes, depreciation and amortization expenses (EBITDA), adjusted EBITDA and non-GAAP EPS (adjusted EPS), which are financial measures that are not determined in accordance with accounting principles generally accepted in the United States of America, or GAAP. Adjusted EBITDA and adjusted EPS remove the effect of severance and restructuring related expenses related to our cost reduction initiatives and stock-based compensation, as well as uncommon, non-recurring or special items. Adjusted EPS also removes the effect of amortization of intangibles acquired in acquisitions. Depreciation and amortization expenses primarily represent an allocation to current expense of the cost of historical capital expenditures and for acquired intangible assets resulting from prior business acquisitions. EBITDA, adjusted EBITDA and adjusted EPS should be used in conjunction with other GAAP financial measures and are not presented as an alternative measure of operating results, as determined in accordance with GAAP. We believe that these non-GAAP financial measures allow a more meaningful comparison of our operating performance trends to both management and investors that is more indicative of our consolidated operating results across reporting periods. We believe that adjusted EBITDA and adjusted EPS provide a better understanding of our company's operating performance and cash flows. A reconciliation of the non-GAAP consolidated financial measures is included in a table below.

Forward-looking Statements

This press release may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Such forward-looking statements include statements regarding our expectations, hopes or intentions regarding the future, including but not limited to, statements related to our strategic positioning; our positioning for future growth; expectation of financial performance, opportunities, expectations or intentions for growth in top or bottom line operating results; expectations for gross margins; expectations of reaping the benefits of our 2017 investments in security, cloud, hybrid data center and managed services; expectations for profitability for the full year of 2018; expectations for the full year 2018 growth; expectations for revenue growth in the third and fourth quarter to exceed that of the second quarter; expectations of earnings per share. Forward-looking statements involve certain risks and uncertainties, and actual results may differ materially from those discussed in any such statement. Factors that could cause our actual results to differ materially include without limitation risks and uncertainties related to the following: our ability to attract and retain key employees; our ability to receive expected returns on changes in our sales and services organizations or strategic investments, including without limit, investments in advanced technology solutions and services, our call centers and our international expansion; risks associated with our ability to integrate our acquisitions; availability of key vendor incentives and other vendor assistance; our IT infrastructure; risks associated with cyber and data security including compliance with related regulatory requirements such as the European Union General Data Protection Regulation, which will apply to our operations beginning in May of 2018; the relationship between the number of our account executives and productivity; decreased sales related to any of our segments, including but not limited to, potential decreases in sales resulting from the loss of or a reduction in purchases from significant customers; the effect of any failure by us to continue to successfully transition outsourced BPO services historically provided to our En Pointe business under a service agreement we acquired in connection with our En Pointe acquisition;

possible discontinuance of IT licenses used to operate our business which are provided by vendors; increased competition, including, but not limited to, increased competition from direct sales by some of our largest vendors and increased pricing pressures which affect our pricing strategy in any given period; the misappropriation or unauthorized use of our proprietary or confidential information by competitors or others; our loss of personnel to competitors; the effect of our pricing strategy on our operating results; potential decreases in sales related to changes in our vendors products; the potential lack of availability of government funding applicable to our Public Sector business; the impact of seasonality on our sales; availability of products from third party suppliers at reasonable prices; business and other conditions in Canada, the UK and Europe and the Asia Pacific region and the related effects on our Canadian, UK and our Asia-Pacific operations, including without limitation our executive management's lack of experience operating in some of these markets; increased expenses, including, but not limited to, interest expense, foreign currency transaction gains/losses and other expenses which may increase as a result of future inflationary pressures; our advertising, marketing and promotional efforts may be costly and may not achieve desired results; shifts in market demand or price erosion of owned inventory; other risks related to foreign currency fluctuations; warranties and indemnities we may be required to provide to third parties through our commercial contracts; litigation by or against us, including without limitation the litigation and other actions related to our En Pointe acquisition; and availability of financing, including availability under our existing credit lines. Additional factors that could cause our actual results to differ are discussed under the heading "Risk Factors" in Item 1A, Part I of our Form 10-K for the year ended December 31, 2017, on file with the Securities and Exchange Commission, and in our other reports filed from time to time with the SEC. All forward-looking statements in this document are made as of the date hereof, based on information available to us as of the date hereof, and we assume no obligation to update any forward-looking statements.
