## **PCM Added to Russell 3000® Index**

EL SEGUNDO, Calif., June 26, 2017 (GLOBE NEWSWIRE) -- PCM, Inc. (NASDAQ:PCMI), a leading technology solutions provider, today announced that the company has been added to the Russell 3000® as part of the Russell U.S. Indexes annual reconstitution, effective after the U.S. market opens on June 26, according to a final list of additions published on June 23.

Annual Russell indexes reconstitution captures the 4,000 largest U.S. stocks as of the end of May, ranking them by total market capitalization. Membership in the US all-cap Russell 3000 Index, which remains in place for one year, means automatic inclusion in the large-cap Russell 1000® Index or small-cap Russell 2000® Index as well as the appropriate growth and value style indexes. FTSE Russell determines membership for its Russell indexes primarily by objective, market-capitalization rankings and style attributes.

Brandon LaVerne, Chief Financial Officer of PCM, Inc., commented, "Inclusion in the Russell index demonstrates our recent successes in increasing our shareholder value through our market capitalization. We believe our membership in this index will extend our presence within the investment community and enable us to reach additional investors and potentially broaden our shareholder base."

Russell indexes are widely used by investment managers and institutional investors for index funds and as benchmarks for active investment strategies. Approximately \$8.4 trillion in assets are benchmarked against Russell's US indexes. Russell indexes are part of FTSE Russell, a leading global index provider.
